

Partners (Training for Transformation) have been “playing” with **Paulo Freire's** ideas and methods for many years with different groups and communities.

We have been engaged in two tasks:

- ◆ Making practical use of Freire’s ideas and methods in our work with groups, organisations and communities .
- ◆ Introducing people to Freire’s ideas and methods.

This workshop is born out of that experience and will focus on:

PRINCIPLES: The key ideas and insights **Freire** offers

PRACTICE: An introduction to methods, examples of codes, case studies

PLAY: The creative use of **Freire** and the adaptation and combining of his ideas with others’.

The workshop will be very participatory and experiential. While the main focus will be on the practical use of Freire there will be short inputs on the ideas behind the practice.
